

This 26'x32' Salt Box provides an open first floor plan with one garage bay, workshop and storage. The second story provides wide open living space that could be divided up into one or two bedrooms, a bathroom and kitchen. Maybe a two car garage on the first floor? Don't need a garage or workshop? Use the whole first floor as living space.

TIMBER FRAME:

- 832 SF first floor
- 376 SF second floor
- Pine or hemlock timber frame
- Mortise and tennon joinery
- Hardwood pegs
- Endgrain scaler
